After that ing to \$576,918. 2 roducts of fix fories reached channel from the sea to Portland work vill be very easy for some distance by is a necessity to the city, it is of importance youd Boda Springs, as the route of the roud also to the whole country. It is to be doubly will be through a level plain the entire diimportant henceforth both to city and country. in consequence of the rapid extension of the great railroad system that centred here.

But the aid of the general gevernment is not to be the sole or chief dependence for the work which all admit must be done. Portland now has wealth to push the necessary improveeffort is to be put forth to secure the assistance the government, there is no descut from the opinion that Portland must aprix her own suergies to the work. Under the charjer the city has the requisite power. It has exercises this power heretofore in the construction of a dredge; and it must do so again, and must construct more than one, if necessary. The govornment drodge building bere will soon be ready for work; but to may not be able to do all that may be required in the rivers next year, and to guard against accident or failure. or in any event to relatores the work under taken by the government, Portland should and must have a dredge mady by the first of August next. The cost of an excellent machine for river work pred not exceed \$20,000; and \$12,000 more will opprate at for the season. One such dredge at work this year would have kept a channel clear to sufficient death to have obviated all the most annoying co-entions during the past two mandle. It is a serious reflection on the enterprise of Portland that such a state of things shoul have seen suffered; but it is only fair to say testat was not anticipated, since it was supposed the government dredge. would be completed and in operation fully two months ago. However, Portland can new azticipate the future by taking measures to guard against the recurrence of suc 1 a stars of things. The people will pay the ax wi ingly, from year to year, as often as may be necessary. A people who show their carpestness by taxing themselves for such an object are Rely, moreover, for that very reason, to secure the assistance of the government to a 'arger degree. Improvement of the Columbia rever bar is a

efficient as possible for the work of peat year; The mayor, we learn, will submit a statement of the subject, with recommendations, to the common council at its next regular meeting. THE GRAIN STATES.

An extra census bulletin has just been is-United States for the year ending June SO, times to increase very rapidly. While @10 bushels, a larger crop in preportion co the population than any other state or terriof the whole crop of the country. Nearly a, as it was a year ago. third of the entire corn yeld of the United States was grown in Litinois, whose product. The contribution entitled "Suggestions" of million bushels. The other great porn states to be worthy of examination. By those who are lows, which produced we handred and are accustomed to the old methods it would seventy-five million: bus hele; Missouri, two hard'y be approved at first glance; but most filteen; Ohio, one hundred and eleven, and tained through suggestions made by persons the product in Illinois was sixty-three million are there'ry free from the limitations which Pennsylvania, thirty-three; Wiscomin, thirty- They who have long been in the habit of do ng ley crop of the United States, the former showing a production of twelve and the latter seven million bushels, while lows oflows with four and Minnesota three million bushels. Two-thirds of the buckweent grown in the United States is creditor, to New York and Pennsylvania in the proportion of our and a half million bushels to the former and three and a half to the latter. The leading rye states are Pennsylvania, with a crop of three and a half million bushels, Illino's three, New York two and a half, Wiscons in two, and Iowa one. The tables show that the entire yield of the United States for the year was four hundred and fifty-nine million hushe s of whea . one billion seven hundred and fl ty-four mi lien of corn, four hundred and seven million of oats, twenty million of rve, forty-four milion of barley and twelve million of buck-

The listory, prospects and promises of the Oregon Pacific are set forth at length in contribution to our columns to-day. T. road will undoubtedly be of local service fro the first. The question whother it is to a sume wider scope and importance will deper ment on her own account. So, while every on the degree of success attending the energy to made a harbor at Yaquina Bay, and lice long time will clapse till this is accomplishe t Onite a large force is now at work on the road; and one cargo of rails, destined for it has already arrived at San Francisco.

A member of the English parliament his under aken a plan to check the increasing fanda sa for literature of the "penny-dreadfu" order amon; young readers. He proposes combat this great and growing svil by catalishin; chi cren's libraries, and offers to su iscribe \$2500 for this purpose. Similar move ments are surely needed in this country, as asts for foolish and immoral reading is wid y prevalent among our boys and girls. Mor idly sensational literature is flauntingly deslayed at every news stand, and is dovourrith aviding by the children of many respect able ami les. The writers of these s ories of ther present totally absord views of life, or devote themselves to the task of making vito attractive. Their heroes, when not Indian fighters of super-human bravery, are pirates; ighwaymen, negro minstrels, or boys wat revel in the perpetration of stupid and bruft practical okes. Disgusting as works of this character may appear, they soon become strangely 'ascinating to the young, and fur ish a powerful mental intoxicant. Those w are once englaved swinishly reject the pear s afforced by a nobler and more elevating literature. But there are indications in many directions of a growing tasto for be the things among the youth of America. Never before were so many excellently written and beautiful villus rated books for the young pub ished seheme which, on account of its magnitude, as now. At the great publishing houses have must be left to the general government. The taken up this line of publications, and are Portland will, of course, be confined mult plying good books at a rate hitherto cuor they would not be published. Books of bistory and adventure, such as "Old Times in the Colonies," and "Stories of the Old Dom a-

width she high more plus distance between pig es. E supportion of pondutums immediately over the perforait matching of the pipe will avoid saud from chieffing the pape when the pump is not working. A pipe lying a ross the Columbia, har would not be indyed by the swell. It would lie as a thain would. It magnet Chicago's not water main with flexible joints laid arrows. Sometia har with its engine to feed pump and a continuous jet of spray tas from fountains) physing when the lide was running out, how long would the said remain? But no such powers is necessary. give cities of these plans a thorough trief, and I do not see how it can be controvered that either would work. While the city of Portland is revolving the different nethods of removing har observations—it lesing a problem she must solve speedly—night it. Jeing a problem sage must solve upeculy—integral and be well to take the steam pump from the upper erry, put it on Gook's barge in Astoria and try the battery experiment? It might be gotten ready in two weeks at a monimal cost and demonstrated a success before a ow Uncle Sam swakes to the knowledge that his roundsbout ways and in thods have been supersocied. The McBean plan is also worthy of consideration and especially for work at the Columbia by of is necessary.

Mr. Editor, I would rather be laying the pipe than writing the article.

D. D. McDEAN. MINOR MEXITON.

CONVICTED OF MANALAUGHTER. The jury in the case of Frank Howard, on trial for the murder of James A. Smith, retired at 3 The Oregon sa. la from San Francisco this morning. p'clock yesterday morning, and after twelve hours. Steamer mail closes at 9 c'clock to morrow de iberation retilened a verdict finding him guilty manufation returned a vermet innuing him guilty manufatighter, and re commending him to the recy of the court. Punishment for manufatighter reconfusing and to fees than one nor more than keen years in the state pantiemitary. Howard will sentenced to morrow. It is understood that the strong of the jury shood, two for murder in the strong of the jury shood, two for murder in the strong of the jury shood, two for murder in the strong of the jury shood, two for murder in the strong of the jury shood. The winter term of Willamette university open Movember 18th.

Gov. Takyer yesterday appointed Chas. Parker of Independence and J. H. Parker, of Marion county notaries arabite for the ementing two years.

Four laye, Martin Smalldan, Chas. Miller, John Chillan and Willie Daley, were each fined 875 of three separate charges of petty larceny in the police court yescerday, and having no money were sent to sail.

CARD OF THANKS I ded to publicly thank the many a sigmas are in part, the merchants of Portland and river mar gen-erally, its chapters of Archard for their very lit-tual and a their chapter, as a proper to mysolf. A ship-marked their chapters are the mysolf. Accident and Crime.

UMATRIA, Nov. 1.—On Sunday, Oct. 23d, a young man on Suiter creek, this, roundy, shot a chicker with a navy revolver. As he caught the fowl to cut its head off he placed the revelver under his arm Stouping over it dropped to the ground and wis discharged, the half-taking effect in the right side, causing a mort if wound.

At Hopmor, on Saturday, Oct. 19th, in a berroom after, Walliam Jones and John Barker in the law side of the neck, causing a ban Barker in the law side of the neck, causing his death within an hour Che shotting was generally conceiled to have been done in self-defense. Barker was a bad and dangerous man and under influence of liquor at the time er any and superment agrees of agrees for their very life-a at and substantial penishance to myself, a slip-wrecked stranger in their m dat. Their generality has piacetime under, obligations which I can never repay and w iich I can inho no words to sulfably ac-knowledge.

Manter of the wrecked bark Fernzlen.

Cheapent late in the city at the People's One Hall, Black & Od. of New York, sold last March to a military gentleman, an elegant diamond cross, for which, he paid \$1330. Through circumstances beyond he control, below to impelled to pledge it with note Myers, '191 First street. All lovers of the heartiful are invited to call and sep it, as it is a perfect makes of genus and will be sold for the amount it and and interest. Come and see our Cloaks. Come and see our Dolmans.

Come and see our Circulars.

Come and see our Ulsters. MELLIS BROS. & CO. Minville's late cutter and fitter, Mrs. M. J. Mesgi-er, who cut, designed sind draped those elegant suits for the fair, has ranumed business for herself at 95 Tairl street, corner of Stark. DR. HOLLAND'S LAST VERSES. If life awake and will never crase
On the future's distant shore,
And the rose of love and the lify of peace
Shall bloom there foreversions. Let the world go round and round,
And the sun sink linto the sea;
For whether I'm on or under the gro ind,
Oh, what will it matter to me?

— Youth's Companion

AFTHENOON HOARD.

45 Years Before the Public. THE CENUINE DR. C. McLANE'S

CELEBRATED

FOR THE CURE OF Hepatitis, or Liver Complaint, DYSPESSIA AND SICK HEADACKE.

o d way was to Symptoms of a Diseased Liver.

DAIN in the right side, under the

dedge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with min, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A sight, dry cough is sometimes an . attendant. The patient complains of weariness and debility; he is easily star led, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existec, yet examination of the body,

have been extensively deranged. AGUE AND FEVER. Da. C. McDane's LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathertic can be used, preparatory to, or a er taking Quinine. We would advise all who are afflicted with this sease to give them a PAIR TRIAL For all billous derangements, and as a simple purgative, they are unequaled

BEWARE OF IMITATIONS. The gentine are never sugar coated. Every box has a red wax seal on the lid, with the impression Da. McLant's Liven The genuine Mchane's Liver Pills bear

the signatures of C. McLane and Fleming lines, on the wrippers.

Inst t upon having the genuine Dr. C. McLane's Liver Phils, prepared by Fleming in Br-s., of littsburgh, Pa, the market being full of imitations of the name McLanc, speller differently but same pronunciation. Sole Agents for Oversen and Washington Ty.

"Guiteau had made a collection of newspaper into fications, speces criticisms on Garfield, nearly all taken from the republican press. You must remember that before Garfield was shot there was a good det of hard opment upon him. Perhaps the majority of republican newspapers were invitious and ceneorious. A few of them were full of sall. Correspondents were sent to Washington for the purpose of writing Garfield down. He was accased of instrectity, naming, malice and many after things. The sent is was arcsized for a long period. Not acting on the themess before it, this man Guitane, the purpose of writing houses, and reading up toward fame, though the perceived justification enough to go and buy that pittel what make out of the contents of his mind," said Corkhill. "That is the like of that God was on he sake, and that he result shows that God was on he side, and that he was not missacrifice to a nissalen—a great day."

823E KELS' PROTEST. WHAT HE ONCE THOUGHT OF RE-

1 an Francisco Chronicle.1 A number of years ago Claus Sprockels was not so partial to the reciprocity treaty as he is, at present in .875 hefor he had managed matters so that he could grasp it a entire angle trade of the Sandwich lealands, he had an entirely different view from that he low griefains. In that year he joined with M. Luning, M. Eminan and Herman Messe in a protest to the United states Sanate, which was sent to Representative In treel at Washington. Wit at Mr. Sprockels and the other angar rethers then said has since been verified. The ybeet sugar industry has been crushed had been successfully and the state of absolute increasity. Int Mr. Sprockels toll his story very plainty, and the messent in the form of the city of the increasity. The Mr. Spreaks toll his story very plainty, and the messent in the comments as papered in the Grocer and Country Merican to of this city it the time it was forwarded.

The undersigned, refiners of the Pacific coast, respectfully direct your attention to the following additional, and, in our ontoino, logant reasons why the reciprocity treaty with the flaweilan Education and the reciprocity treaty with the flaweilan Education and the transpective of the Islands to produce seems. The rapacity of the Islands to produce sugar has in been sufficiently explained. Understanding the produce of the Pacific coast, are capable of producing annually not less than 100,000,000 pounds or 60,000,000 pounds mays than 100,000,000 pounds or 60,000,000 pounds ingretibant the entire yearly consum tion of the Pacific coast, inc. uning all the states and territories were of the Rocky, mountains. Under the action of rec. procity this yest ame into a sugar would ind its way to fan Francisco and completely shut out imports from all other producing countries: Of the 16,000,000 pounds the is and would urnish yearly this coast would probably not take nore than than 30,000,000 pounds for desired consumption, and the balance if its substant in the surface of the surface of these of the surface of the surface of these of the surface o PROTEST OF SPRECERIS.

FOR THE BENEFIT OF A POREIGN PROPER,

have seem no other signs of insanity about him, and Mr. Ourhilli, than title exalted idea of his own value and of the umitity and propriety of all his some line would go to the gallows with his head proudly in the air if the enoughton were public enough.

AGRICULTURAL MATTERS. A New (Variety of Wheat.

IN ARCADY.

Years ago across the sea Dwelt a child in Arcady, Pulled the petals of a flower Just to white away an hour, Saying as the petals fell.

"Tell my fortune, truly tell; Who is coming now to me, Prince or peasant will he be?

For malifers questions Even there in Arcady.

Presently a lover came, But she never taked his name,

"Bearest, I will be your bride, Prince or peasint, what you be, Youlare all the world to me."

For love was only love, you see, Long ago in Arcady.

We have at it in Arcady,
Where true hearts alone may be,
State of all the greed and atrife,
Of this resslous present life.
Wealth and tatters there abide,
Prince and pessant side by adde,
Never growing hard or old,
And the key is not of gold.
For whereas or Love deigns to be,
That is always Arcady.

gallant, with the use of corresponding forms of expression which tend to prove Shakespeare's soquaintance with the stories in question. But

Only poettrd to his side

BY "RECERTOR E, WELTHROLT.

The Emporium Scott wheat is a new variety lately disseminated from Pennsylvania. It is described as a bald variety with white chaff and red berry, 're load being long and thickly not while the straw is always free from rust. Its flouring que ittes are said to be excellent, while the yeld a large.

The Prests of Sheep Growing. A sheer grower of Iowa says: "I bought In many gardens where there are old walls, the twenty-three lead of sheep, twenty-we woo wos red spirer gives much trouble, and to cope and one book, which cost me \$34.50. I shear—with this just at starting sulphur is the best and one bock, which cost me \$34.50. I sheareffin April 10 pounds of wool, which I sold
at 25 pecus, per pound, which amounted to
\$42.50. I sheaf lifeton lamts, wort: \$22.50.
I sheaf of the put into water and stirred, it may be syrtemed on and driven into any nationless mortal wool and lambs prioring \$55. Taking the part of the interpretable of the interpretable of the sheaf lamts. I crossed with a lifeton of sulphur and water, owes are sift-freed Merinos. I crossed with a lifeton of sulphur and water, owes are inferred Merinos. I crossed with a lifeton of sulphur and water, of sale of sulphur and water, of sale of sulphur and water, and water, which gives me the web of the salespan he is known as the merino of sulphur and water, and water, which for wool and the Merino weight, which for wool and mutton think is

tary movements of France.

But it is higaly probable that France would have escaped the soverity of these European clay, parafin and water, and dab the mixture of the have escaped the soverity of these European clay, parafin and water, and dab the mixture of the have escaped the sover intensely protection int. The has given cause of offense, not by her poundings again. The worst pest, however, that gardenoval have to onitent with during the espect boundes interests of every nation having commercial intercourse with France. The latter is particularly injurious to England, and Englishmen are now, in consequence, are to be saved from being crippled, these flows. appears to disselve them.

Another way s to make a thick liquid with

The latter is particularly injurious to England, and Englishmen are now, in consequence, feeling very coof toward France. Premier Gladstone is run down with deputations from the sugar industries of England, praying for a sation user. France by the adoption of countervalling stgar bounties. English papers teem with sugges longed commercial and financial revenges that might be taken against France. The relations between these two great nations—recently the best of friends—are now really strained soldly on account of France. It is true that France resorts to these measures, it is supposed, only as a means of driving her natighbors into the negotiation of commercial and sile treates with her. The export bounties on sugar and sile tree feet of the offensive policy will probably cease where England can make treaty terms satisfactory to France. Other countries will be favored by France on the dame conditions. It is thosed and believed that

the weather gets warm, the garden engine is the best cradicator, as by well directed arrears of water they may be washed off by its power-ut force, and trees, by its aid, kept in most

xuriant scalth. In cases where a his may have got a hold uxuriant icalth. In cases where a his may have got a nour previously, it is a good plan to apply a syringing of tobacco liquic or some of the insecticities first, as after being on a few hours, to follow up with the water which will distedge a stragglers, and then the work of keeping clean or the rem of the nummer will be easy enough

[From the Philadelphia Times.]

Home ig it was thrown upon the origin of Ciphtheria ast night in a lecture before the lacademy of Natural Sciences, by 2rof. Hora io C. Wood, who gave the result of his researches O. Wood, who gave the result of his researches in connection with 'Dr. Honry F. Formed, neviving the important discovery that this fatal and insic lode discase is propagated by a microscopic plan, or faugh, existing in all human beings, especially in the mouth and treat, but lacking the power of reproduction until given increased vitality by those disordered middleng of the propose are but he is a middleng of the propose are proposed. conditions of tho mucous membranes which attend sore throat when caused by cold. The investigations were made at the instance of the national board of the national national board of health and extended not only
